

Unanswered COVID-19 Corona Virus Questions AND Unanswered COVID-19 Corona Virus Vaccine Questions

After being so heavily bombarded by the news media for over a year about how scary the COVID virus was supposed to be and how safe and effective the COVID vaccines were supposed to be, there still remain some very glaring, very troubling unanswered questions about that entire pandemic and the many statements made by both the mainstream media and the supposed health care experts. Of equal note, are the many issues that were never addressed or only glossed over by people telling us we were going to die if we didn't follow their orders.

Why did the flu disappear in 2020?

Why didn't the global death count change much in 2020?

Why didn't COVID wipe out the homeless population?

Why were billions of healthy people quarantined for the first time in history?

Why did COVID avoid Africa?

Why did COVID avoid places that didn't have lockdowns?

Why did COVID avoid Walmart, Home Depot and other large store chains but did not avoid small businesses?

Why did COVID avoid bars but not avoid churches and nursing homes?

Why did a piece of fruit and a goat test positive for COVID if the PCR tests were accurate?

Why were the PCR tests even used, when the inventor of the test said it could not differentiate between the common cold, the flu or COVID?

Why did the majority of positive COVID cases occur in people who hadn't left their homes at the beginning of the pandemic?

Why was COVID the first virus in history where most people who supposedly had it were asymptomatic (showed no symptoms)?

Why did lockdowns have no affect on slowing the spread of COVID?

Why did the vaccines do nothing to slow down the spread of COVID?

Why have we seen a 1000 percent increase in myocarditis in children after they were given COVID shots?

Why were football stadiums filled with maskless people while children were muzzled in schools?

Why didn't the violent riots of 2020 cause "super spreader" events?

Why did Dr. Anthony Fauci keep saying "trust the science" yet he kept changing his mind about the effectiveness of wearing face masks?

Why were vaccine ingredient pamphlets left out of vaccine packages, if people need that information in order to make informed decisions about vaccination?

Why was Remdesivir promoted as a COVID treatment in hospitals when it killed half the people it was used on in Ebola drug trials in Africa?

Why was a Nobel-prize winning drug like Ivermectin mischaracterized as horse-wormer when some doctors were saying that they had successfully been using it to treat COVID?

Why were poorly tested COVID vaccines entitled to very risky "Emergency Use" fast-track production, when several very safe alternative treatments were already available (Hydroxychloroquine, Ivermectin and others)?

Why didn't the mainstream news media report on the tens of thousands of deaths and millions of adverse reactions reported to the VAERS Vaccine Adverse Effects Reporting System?

Why are genocidal thugs like Bill Gates and Anthony Fauci still not under arrest for their crimes against humanity (i.e. their vaccine-induced population reduction programs)?

Why didn't government officials or mainstream media ever acknowledge that the "conspiracy theorists" were right about everything?
