The Coming Collapse Of The U.S.A.

And The Coming Collapse Of The World Economy

The signs of the coming collapse of America, Europe and the rest of the world is described herein with many references to substantiating news articles. The bizarre economic policies and the billion dollar bailouts of banking and other corporate criminals is about to bankrupt the United States. But that probably does not have anyone concerned in the uppermost parts of the US government. They are amassing enormous wealth and at the same time, taking all the steps necessary, financially and militarily to turn the American democracy into a socialist dictatorship, run by the international bankers and corporate billionaires. How this will unfold is probably not too far from the scenario listed in the 15 points below. And before you jump to the conclusion that I am engaging in some kind of unbiblical act of prophesying, I will state that I am only interpreting the signs of time in the light of Scripture and there are links to many news articles that relate to the signs being mentioned.

The Signs Of The Times

"When it is evening, ye say, It will be fair weather: for the sky is red. And in the morning, It will be foul weather to day: for the sky is red and lowring. O ye hypocrites, ye can discern the face of the sky; but can ye not discern **the signs of the times**?" [Matthew 16:2-3]

America – "The Land Of Forgetfulness"

"Shall thy wonders be known in the dark? and thy righteousness in **the land of forgetfulness**?"
[Psalm 88:12]

What many Christians and non-Christians alike don't seem to realize is that history does repeat itself. The Bible is full of warnings to God's people of judgment for sin. Evil people can and will get into power if the masses are too preoccupied with their own selfishness and sin to see the judgment coming. Rampant homosexual and heterosexual immorality and the monumental casualties of abortion in America are undeniable signs of the gross decadence and severe moral decline of our society. Children are becoming as vulgar as the ungodly adults all around them and some are even more desensitized to violence than their adult counterparts. Whenever these signs appear in a society, history shows that God's

judgment is not very far away.

6. Local, state and federal and other **public agencies will no longer have funds** to support critical services such as police, road repairs, bridge repairs, sewage treatment plants, water treatment plants, garbage disposal, emergency workers, etc. Why do you think the DHS (Department Of Homeland Security) has supplied so many military tank style vehicles to local police forces – even the tiniest of rural communities? 7. State and Federal **"welfare" programs will collapse** causing panic and rioting. 12. The **US military will use drones to single out "trouble makers"** in less urban areas to set an example for those already herded up and for those who may be thinking about resisting the government's programs.
