

Scientism - The Religion Of Atheists

In an attempt to eliminate God from their lives, atheists have invented a new religion. It is the religion of Scientism, based on fabricated stories, hypothesis, conjecture, and unprovable theories relating to what could most accurately be called “pseudo-science” – ideas about origins – described using lots of scientific terminology but based on no real, solid, factual, scientific foundation. Just a whole lot of wishful thinking that attempts to remove God from the equation of how life originated, why it exists, and how it could have come about without God as the “First Cause”.

With secular humanism and evolution being taught so “religiously” in schools for several decades, it is no wonder that the religion of “Scientism” could have **evolved** (pun intended). In the religion of Scientism people believe that science has all the answers, with zero need for God or religion. What they end up with is nothing more than the elevated opinions of some outspoken, articulate, but never-the-less, scientifically ignorant individuals who call themselves scientists, who don’t have all the answers so they make up the answers, to justify a world-view that attempts to erase the God of the Bible from their world-view. — *R.M. Kane*

“For the wisdom of this world is foolishness with God. For it is written, He taketh the wise in their own craftiness. And again, The Lord knoweth the thoughts of the wise, that they are vain. Therefore let no man glory in men.” - 1 Corinthians 3:19-21
