Evangelism Methods & Resources

EVANGELISM TOOLS

Information about Evangelism methods to help Christians share their faith and to share it accurately.

Many of our evangelism articles point out the serious flaws and misconceptions that many Christians have regarding evangelism – what it is, what the gospel is, how God saves a soul. Lots of false methodologies are being used by modern Christian churches and evangelists in order to increase church attendance, increase church income and to promote overall church growth. A very negative side-effect of all these modern methods is that they tend to produce lots of false converts – people who think they are ready for heaven, think they are "saved", think they have been "born again" when nothing could be further from the truth. It is our desire at **ComingInTheClouds**, to help you to avoid error and heresy as you share your faith in the Lord Jesus Christ.
