Those are the people I am supposed to refer you to so that you never dare to try cheap, safe, effective alternative medical treatments. Are ANY Vaccines Safe?

Do you think that ANY vaccines are safe, for anyone? Think again, before you become one of Big Pharma’s many vaccine victims. It’s only a matter of time before all the dangerous ingredients in today’s vaccines destroy your immune system or kill you flat out: Joe Rogan Guest Completely Shatters the Vaccine Narrative

Folks, Big Pharma is not some benevolent health care system, constantly striving to make the world safe from Covid Cooties and other hyped up "boogie germs". They are a very greedy and corrupt global money-making system that they control using various means:
They have government-granted immunity from lawsuits even if their shots kill people.
They have control over search engine results.
They have control over politicians via their lobbyists.
They have control over fact-checkers.
They have control over social media.
They have control over television advertising.
They have control over your doctor.
They run their own drug & vaccine field trials – a glaring example of foxes guarding the henhouse.
Their vaccine field trials eliminate people from the results, if those people drop out of the trials due to early-onset side-effects. Isn't THAT comforting to know?
The vast amount of censorship on-line and off-line during the Covid crisis made it abundantly clear just how far-reaching Big Pharma's tentacles can and do reach. This reality was most apparent to ANYONE who dared to post ANY news articles on-line that presented Big Pharma's Covid jabs in an unfavorable light. Such posts were sometimes immediately banned or… "shadow-banned" so that other social media users would not be shown those posts.

CORRUPT COVID FACT-CHECKERS

The **COVID-19 Vaccination Project** which purports to be some independent "fact checkers" exposing false claims on the experimental vaccines is actually funded by one of Big Pharma's major companies. It's the Robert Wood Johnson Foundation which holds $1.9 billion in Johnson & Johnson stock and it's CEO is Richard Besser, the former director of the Centers for Disease Control (CDC) under President Barack Obama.
