# COVID Vaccine Side-Effects And Suggested Treatments

This article lists websites and web pages that offer suggestions for treatment of COVID-19 vaccine side-effects, primarily long term side-effects. Some of those treatments have to do with strengthening your immune system which the COVID vaccines can damage, and other treatments have to do with decontaminating your body of toxic vaccine ingredients. If you want advice from a medical professional, you better find one who knows about wellness, holistic, homeopathic medicine. Your run-of-the-mill doctors are taught almost NOTHING about wellness. They don't practice that kind of medicine. They practices allopathic medicine – which is basically the treatment of symptoms with drugs. More about that here: Allopathic Medicine vs. Holistic Medicine.
