1611 King James Bible
1613 Printing

*Ruth 3:15 says "she went into the citie".
It should say "he went into the citie".*

**1613
King James
"She" Bible**

*The Psalms
Of David*
1636 Metrical Psalter

Metrical Psalter: Translation of all or part of the Book of Psalms in vernacular poetry, meant to be sung as hymns in a church. This rare 1636 psalter was written by King James as a personal devotional.

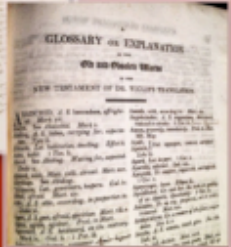

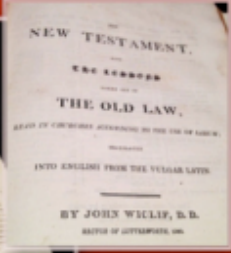

*William Tyndale's
1549
"Matthew's" Bible*

Matthew's Bible was the combined work of three individuals working from numerous sources in at least five different languages. The entire New Testament first published in 1526 (later revised, 1534 and 1535); the Pentateuch, Jonah and in David Daniell's view, the Books of Joshua, Judges, Ruth, First and Second Samuel, First and Second Kings, First and Second Chronicles, were the work of William Tyndale. Tyndale worked directly from the Hebrew and Greek, occasionally consulting the Vulgate and Erasmus's Latin version, and he used Luther's Bible for the preface, marginal notes and the biblical text. The use of the pseudonym "Thomas Matthew", resulted possibly from the desire to ensure acceptance of the participation of Tyndale in the translation. The remaining books of the Old Testament and the Apocrypha were the work of Miles Coverdale. Coverdale translated the Bible from the Latin Vulgate, and is credited to the exclusion of the other, in reality they knew each other and occasionally worked together. Foxe states that they were in London translating the Pentateuch together in early as 1529. (SOURCE: wikipedia.org)

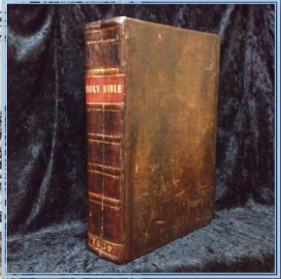

*John Wyclif's
New Testament
1731 Edition
Originally Translated
Into English In 1382*

Wycliffe was an early advocate for translation of the Bible into the common language. He completed his translation directly from the Vulgate into vernacular English in the year 1382, now known as Wycliffe's Bible. It is probable that he personally translated the Gospels of Matthew, Mark, Luke, and John; and it is possible he translated the entire New Testament, while his associates translated the Old Testament. Wycliffe's Bible appears to have been completed by 1384, with additional updated versions being done by Wycliffe's assistant John Purvey and others in 1388 and 1395. [SOURCE: wikipedia.org]

William Tyndale's 1549 "Matthew's" Bible

Matthew's Bible was the combined work of three individuals working from numerous sources in at least five different languages. The entire New Testament (first published in 1526, later revised, 1534 and 1535), the Pentateuch, Jonah and in David Daniell's view, the Books of Joshua, Judges, Ruth, First and Second Samuel, First and Second Kings, and First and Second Chronicles, were the work of William Tyndale. Tyndale worked directly from the Hebrew and Greek, occasionally consulting the Vulgate and Erasmus's Latin version and he used Luther's Bible for the prefaces, marginal notes and the biblical text. The use of the pseudonym "Thomas Matthew" resulted possibly from the need to conceal from Henry VIII the participation of Tyndale in the translation. The remaining books of the Old Testament and the Apocrypha were the work of Miles Coverdale. Coverdale translated primarily from German and Latin sources. Historians often tend to treat Coverdale and Tyndale like competitors in a race to complete the monumental and arduous task of translating the biblical text. One is often credited to the exclusion of the other. In reality they knew each other, and occasionally worked together. Foxe states that they were in Hamburg translating the Pentateuch together as early as 1529. [SOURCE: wikipedia.org]
