Friend, there is no doubt the King James Bible is the word of God.

And there is no doubt you will one day stand before God!

The Bible says in Hebrews 9:27, *"And as it is APPOINTED unto men once to die, but after this **THE JUDGEMENT.**"*

THE PLACE CALLED HELL

The Bible continually warns of a place called hell:

*"And shall cast them into a **FURNACE OF FIRE**: there shall be wailing and gnashing of teeth."* Matt. 13:42

*"The smoke of their **TORMENT** ascendeth up for **EVER AND EVER**: and they have NO REST DAY NOR NIGHT."* Revelation 14:11

God does not want YOU in hell

Matthew 25:41 says that hell was prepared for the devil and his angels—**not for YOU!**

God loved you so much He gave His own Son, Jesus Christ, to die in **YOUR** place, to pay for **YOUR** sin, and to keep **YOU** out of hell!

"For God so loved the world, that He gave his only begotten Son, that whosoever believeth in him should not perish, but have everlasting life." John 3:16

One day you will die... today... tomorrow... next week... next month... next year... 10 years... 50 years —

DEATH IS CERTAIN

Don't wait until you die to know the truth about Hell! Tomorrow may be too late! Proverbs 27:1 says, *"Boast not thyself of tomorrow: for thou **KNOWEST NOT** what a day may bring forth."*

What you just read, is irrefutable, scientific evidence the Bible is God's word!

You asked for proof — you now have proof!

What are you going to do with it?

Friend, have you ever received Jesus Christ as your personal Savior?

You may have made some terrible mistakes in your life. There may be things in your life you would give anything to change. ***But, if you die without Jesus Christ— it will be the worst mistake you could possibly make!***

YOU WILL BE IN HELL!

Don't let anyone tell you that when you die it will be all over. Hebrews 9:27 says, *"And as it is appointed unto men once to die, but after this **THE JUDGEMENT.**"* Revelation 20:15 says, *"And whosoever was not found written in the book of life was cast into the **LAKE OF FIRE.**"*

If you've never received Jesus Christ as your Savior, bow your head this minute and ask Jesus Christ to save you. **Don't put it off another minute!**

NOTHING'S WORTH TAKING THE CHANCE!

Pray this prayer, and mean it with all your heart.

Lord Jesus, I know that I am a sinner, and unless you save me I am lost forever. I come to you now, the best way I know how, and ask you to save me. I now receive you as my Savior. In Jesus Name, Amen.

"How shall we escape, if we neglect so great salvation;"
Hebrews 2:3

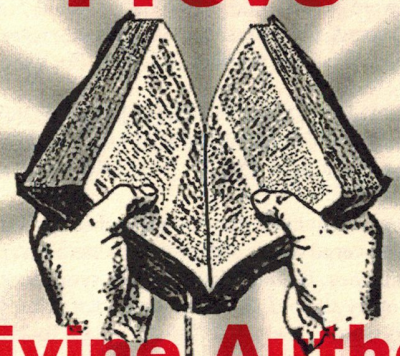
Scientists Prove



Divine Author of Bible

And he gave unto Moses,...tables of stone, written with the finger of God.
EXODUS 31:18

by Dr. Terry Watkins, Th.D.

Three mathematical statisticians, Doron Witztum, Eliyahu Rips and Yoav Rosenberg of the Jerusalem College of Technology and the Hebrew University, discovered words encoded in the Genesis text that was humanly impossible! **For they found related names, events and dates — from the nineteenth century!**

Only someone who knows the future could have placed them there!

The three mathematicians submitted their findings to the prestigious scientific journal *Statistical Science* for publishing, Editor Robert Kass, said:

> *"Our referees were baffled: their prior beliefs made them think the Book of Genesis could not **POSSIBLY** contain meaningful references to modern day individuals, yet when the authors carried out additional analyses and checks the effect persisted."*
> ("Equidistant Letter Sequences in the Book of Genesis", *Statistical Science*, August 1994, p.306)

Here's the details of their amazing discovery:

The Hebrew text of Genesis was converted to a continual string of letters. **It's worth noting the Hebrew text was the Masoretic text, which ONLY the King James Bible is from, ALL new versions use other texts**. The letters were placed into a two-dimensional array, which simply means, the letters were divided into rows, each row containing a certain number of letters. For example:

(row 1) HASDSERYQDWHADIKOTESNSIN
(row 2) HOKNFRWDSCKAPMIENNFUMIE
(row 3) JOLMSUDBDYIWIDIDNEYOPGHE

Using computers, they then searched the Hebrew text. They discovered words composed of letters at various equal skip distances, or "equidistant letter sequences". For example, every *second, third* or *fourth, et al.* letter formed the encoded words. The word "house" might look like this:

(every *second* letter) **HXOXUXSXE**
(every *third* letter) **HXXOXXUXXSXXE**

Finding encoded words is unusual...

But they discovered something else...

In "close proximity" were *related* word-pairs. For example, the researchers found the name "Zedekiah" (a sixth century B.C. king of Judah) and in "close proximity" was the word "Mantanya" — *which was Zedekiah's original name!* They found "Hanukkah" (the Jewish festival that commemorates the re-dedication of the Temple after it was recaptured from the Assyrians in the second century B.C.) and in close proximity was the word "Hasmoneans" — *which was the family name of the leaders of the Jewish armies that took the temple from the Assyrians for which Hanukkah celebrates!* It was **humanly impossible** for the author of Genesis to know this in 2300 B.C.! Not to mention the impossibility of encoding meaningful related "equidistant letters" into a text and then the text itself make sense!

The researchers selected, at random, 300 such related Hebrew word-pairs from names and events that occurred ***hundreds and thousands*** of years ***after*** Genesis was written. And of these 300 related name-event pairs —

ALL 300 WERE FOUND!!!

Looking for a rational explanation — they searched for the word-pairs in simple randomized tests! **But they were not found!** The word-pairs were ONLY found in close proximity to each other — proving irrefutably that the encoded word-pairs were not coincident or accident — **but were intellectually encoded by a superior intelligence!**

The scientists stated the statistical odds of this occurring by chance are less than 1 in 50 quadrillion — that's 1 in 50,000,000,000,000,000! According to scientific analysis — a finding of 1 in 20 is significant! ***One fact is clear — the Author of Genesis was not human!***

Biblical Review stated about these findings:

"The capacity to embed so many, meaningfully related, randomly selected word-pairs in a body of text with a coherent surface meaning is stupendously ***beyond the intellectual capacity of ANY HUMAN BEING*** *or group of people, however brilliant, and equally* ***beyond the capacity of ANY CONCEIVABLE COMPUTING DEVICE.***"
("Divine Authorship?", *Biblical Review*, Oct. 1995, p.31)

The skeptical scientists continued...

Instead of searching for simple pairs of related words, they took the Hebrew reference book, *The Encyclopedia of Great Men in Israel (Margalioth, M., ed. (1961))* and found the 34 most prominent men in Israeli history from the ninth to the nineteenth centuries. They paired the names with their day of birth or death (Hebrew numbers are represented as letters). *The author of Genesis could not possibly foresee these men 4,000 years before their birth and definitely not their birth or death date —* ***unless the Author was God!***

Using the computer analysis, the scientists searched the Hebrew text for the 34 name-date pairs. Remember, they had to be "equidistant" and in "close proximity" to register a "hit". *And how many did they find?* ***EVERY ONE!***

ALL 34 WERE FOUND!!!

The bewildered scientists were baffled.

This was not HUMANLY possible!

Not believing what they were seeing — they repeated the test! They picked the *next* 34 most prominent men from the encyclopedia. Because the dates of the death for 2 of these men were not known, the second test included 32 men. *And how many did they find?*

ALL 32 WERE FOUND!!!

Someone with a far superior intelligence than man encoded these names, dates, and events!

Statistical Science concluded:
"We conclude that the proximity of ELS's (Equidistant Letter Sequences) with related meanings in the Book of Genesis is ***not due to chance.***"
("Equidistant Letter Sequences in the Book of Genesis", *Statistical Science*, August 1994, p.434)

Biblical Review stated:
"The phenomenon cannot be attributed to ANYTHING within the KNOWN PHYSICAL UNIVERSE, human beings included."
("Divine Authorship?", *Biblical Review*, Oct. 1995, p.45)

There is only ONE explanation – GOD!

Biblical Review also stated:
"What then was the purpose of encoding this information into the text? Some would say it is the Author's signature. Is it His way of assuring us that at this particular, late moment-when our scientific, materialistic doubt has reached its apotheosis, when we have been driven to the brink of radical skepticism — ***that He is precisely who He had said He is.*** *. . ."*
("Divine Authorship?", *Biblical Review*, Oct. 1995, p.45)

The researchers ran the same tests using the Hebrew Samaritan Pentateuch (used by the NIV, etc.), which is different from the Masoretic text. According to *Biblical Review* (p.44) **"the phenomenon was UTTERLY LACKING in letter-level variants. . ."** They also tested other texts — sacred and secular — but no such findings existed in ANY OTHER TEXT! Only the Masoretic Hebrew text! **The King James Bible is the ONLY English Bible that uses ONLY the Masoretic text!** ALL new versions also use other Hebrew texts. The NIV, NKJV, NRSV, NASV, etc.use Kittel's Biblia Hebraica, Biblia Hebraica Stuttgartensia, Samaritan Penteteuch, and Septuagint, etc.

The new versions are NOT the Word of God!

IMPORTANT: Since this study was published, both Christian and secular sources have fiercly attempted to discredit it's accuracy and reliability. We have reviewed and re-reviewed the ORIGINAL research and stand behind it, without apology, 100%.

Five distinguished mathematical scholars, two from Harvard, two from Hebrew University and one from Yale, issued the following statement:

"The present work represents ***serious research*** *carried out by* ***serious investigators...***"
("Divine Authorship?", *Biblical Review*, Oct. 1995, p.31)
