

Are You OK?

Are you OK? Are you sure? Did you know that everyone ever born is born with a fatal disease? Why do you think everyone dies? They grow old and die because they have a disease. That disease is called SIN. This disease is ushering people to the grave by the thousands every hour and there is no stopping it. Medical science may be able to slow down the process but it can only put off the inevitable temporarily. Each person has an appointment with death. And along with death, each person has an appointment with God on Judgment Day: "It is appointed unto man once to die and then the judgment". It is extremely important to be ready for the appointment with God. There is hell to pay for those who are not ready, for those who have died in their sins: "Whosoever was not found written in the book of life was cast into the lake of fire" [Rev 20:15]. "and the smoke of their torment ascendeth for ever and ever and they have no rest day or night" [Rev 7:14]. "The soul that sinneth, it shall die" [Ezekiel 4:18]. There is only ONE way to be ready to meet God: "Blessed is he whose transgression is forgiven whose sin is covered" [Psalm 32:1]. We must receive a complete pardon for all our sins from God through the shed blood of the Lord Jesus Christ on behalf of those people whom He died. "But now in Christ Jesus ye who sometimes were far off are made nigh by the blood of Christ" [Ephesians 2:13].
