

What's So Gay About Sodomy?

So why are people celebrating homosexuality?

Is it the higher than average suicide rate?

Or perhaps the higher drug & alcohol abuse rate?

Maybe its the greater number of AIDS cases?

Or maybe the higher rate of STDs?

Is it the emptiness of having a personal identity based primarily on the type of sexual behavior one engages in?

Could it be "Gay Bowel Syndrome" – the joy of wearing diapers because of sexual abuse to the part of one's body designed to excrete waste?

So just what is so "gay" about the sin of sodomy?

"If a man also lie with mankind, as he lieth with a woman, both of them have committed an abomination." [Leviticus 20:13]
